ABOUT ME

Motivated Computer Science Engineering student with strong expertise in full-stack and backend development. Proficient in Python, JavaScript, SQL, and modern web technologies with hands-on experience in building scalable applications. Demonstrated ability to develop innovative solutions through impactful projects including women security systems and professional networking platforms. Seeking internship opportunities to leverage technical skills and contribute to dynamic development teams.

EDUCATION

2023-2027

Bachelor of Engineering - Computer Science and Engineering

Expected Graduation: 2027 | Currently in 3rd Year

Maharaja Institute of technology Mysore, belawadi, Srirangapattana taluk, Mandya district.
